COMPANY OVERVIEW

CDOS Group — Continuous Delivery of Systems — is the commercial brand of YZA LLC, a federal IT engineering and staffing firm. We pair hands-on DevSecOps, cloud, and secure-platform delivery with vetted, cleared technical talent, built on roughly 28 years of federal IT experience across DoD and AWS GovCloud (NIPR and SIPR) environments.

CORE COMPETENCIES

- › DevSecOps & CI/CD pipeline delivery
- › Kubernetes / EKS platform engineering
- › AWS GovCloud cloud & infrastructure
- › Identity & access: DoD PKI/CAC, Keycloak, OIDC
- › Observability & vulnerability reporting
- › Systems integration & middleware
- › RMF / ATO security & compliance support
- › Cleared technical staffing & teaming

DIFFERENTIATORS

- › Built by practitioners, not resellers — engineers who ship in production federal environments.
- › Hands-on experience across both NIPR and SIPR networks.
- › Engineers placing engineers: rigorous technical vetting of cleared talent.
- › Agile small business — responsive, accountable, and low-overhead.
